

THIS WEEK'S BIG IDEA:

Jesus didn't care what it took when he cared for people. He gave up time, approval, and convenience to listen to, care for, and heal others. He teaches us to do the same.

DISCUSS

What does it mean to care for another person? What are some ways Jesus cared for others? What are some qualities of a person who does an excellent job of caring?

We often think that caring for people means being present with them or helping them when they are hurting. And it certainly does. But, what would it look like to care for a healthy person?

An old axiom exists: "People don't care how much you know until they know how much you care." Do you find this to be true? Why or why not? What does it mean for the church today?

What are some obstacles we face in caring well for others? How can you overcome those obstacles?

How would your life be better if you were part of an intentional community who genuinely cared for each other?

A Caring for each other is central to the Gospel.

P What are one or two ways you can become a more caring person and a better caregiver?

JOURNALING

NEXT WEEK:

Refrigerator Rights. Jesus surrounded himself with others and was usually immersed in community. The relationships weren't always easy and they took great commitment—but the effort was worth it and then some. Jesus invites us to be part a community.
